FINANCE APPRENTICESHIP

For Years 11 and Sixth Form

BDO are looking for enthusiastic, talented school leavers to join their four year apprenticeship programme. The company offers a choice of area including audit, tax, business services, outsourcing and advisory with time off to study towards industry recognised professional qualifications plus a competitive salary and benefits package. More details from <https://bdoearlyincareer.co.uk/apprenticeship/>

TASTER DAYS

For Year 12

The London Taster Course Programme provides Year 12 students with the opportunity to experience a taste of London university life. There are over 250 courses on a wide variety of subjects giving you the opportunity to experience lectures and seminar discussion groups, to participate in practical activities, and to meet with academic staff teaching the courses and current students. All the taster courses are free of charge but you need to book. View and apply for them now at www.london.ac.uk/tasters.

BOOK NOW FOR SUMMER SCHOOLS

Year 10 Upwards

The Debate Chamber Summer schools has published details about its courses for next year which offer students age 15 to 18 the chance to look in depth at subjects such as politics, philosophy, physics, medicine, law, maths, international relations, classical civilisation, computer science, English literature and history. More details about course content, dates and costs from <https://debatechamber.com/summerschools/>

A CAREER IN NATIONAL CYBER SECURITY

For All Year Groups

The National Cyber Security Centre and GCHQ are offering CyberFirst, a programme of opportunities including bursaries, courses and competitions. This would appeal to students who are interested in coding, social media, gaming or any other part of the digital sphere. For details see: www.ncsc.gov.uk/new-talent. GCHQ also offer Degree Apprenticeships, see: www.gchq-careers.co.uk

ASTROPHYSICS WORK EXPERIENCE

For Year 11 Upwards

The Astrophysics Research Institute hosts a week long work experience for students aged 16 to 18 at Liverpool John Moores University in the summer. The week, running from 6th July to 10th July, consists of talks, workshops and project research. There is an application criteria which includes being able to demonstrate a passion for science and or astronomy. More details from <https://www.schoolsobservatory.org/news/2019/work-experience-week-2019>
