

Supporting Wellbeing - Helplines

We believe that in these unprecedented times, it is extremely important that students' and parents' wellbeing continues to be supported by the school. Whilst the school is closed, all students will continue to be able to seek support for a wide range of issues. Listed below is a comprehensive list of charities and websites that we hope will be useful. Many of these sites are offering specific information on how coronavirus may have an impact on particular mental and physical health issues.

Please do keep the school up to date with how you are doing, by emailing your Head of House or the safeguarding team on safeguarding@cranbrook.kent.sch.uk – although staff may not be in school, we will be monitoring our emails daily.

Those student who are already accessing 1:1 counselling through Place2Be will continue to receive weekly check-ins from Catherine, our school Project Manager, remotely, in their usual slot (where students or their parents/carers have provided consent. Support for additional students will be provided according to capacity.

Anyone who is need of immediate medical attention should call 999. Anyone in crisis can text **SHOUT** to 85258 to access support from trained volunteers 24/7.

Please look after yourselves, and each other. Remember you are not alone, and that even when the school is closed, we are here to support you.

Student Helplines

Anxiety UK (for help, resources and information on anxiety)
www.anxietyuk.org.uk

Association for Child and Adolescent Mental Health (for help, resources and information)
<https://www.acamh.org/learning/>
