

Funding Statement: 16-19 DfE Catch-Up Funding 2021-2022

A small number of students have been identified as having a need for catch-up support due to qualifying under one or more of the conditions below:

- The student did not achieve above a level 4 or 5 in English and/or Maths at GCSE.
- The student has a SEND need.
- The student is from a disadvantaged background or has unduly been affected by Covid-19 disruptions.
- Priority has gone to students who meet all 3 conditions.

In these cases, a small number of students will be provided with some catch-up support for highlighted subjects in groups of no more than five. The money will be spent on intensive catch-up sessions in subjects that they are underperforming in. These will be delivered by specialist teachers at the school.

Each group will take place in a distinct location and learning will be in line with their current A Level selections.
