Milestones and Learning Outcomes

Year 13

Articulating Employability Skills

Students are able to research, plan and apply for relevant opportunities with confidence and insight

Year 12

Developing Employability Skills

Students articulate a clear sense of the different post-18 options and can identify the different challenges and opportunities of those most relevant to their own interests.

Year 11

Career Journey Planning

Students show development in their career awareness by planning, applying for and reflecting on their Work Experience.

Year 10

Developing my Skillset

Students can explain how curriculum-based skills and learning relates to real-world challenges

Year 9

Preparing for my Career Journey

Students show an understanding of the need for a considered approach to GCSE choices and relate their choices to an understanding of their skills and interests.

Year 8

What makes a Workplace? Qualifications and Skills

Students show a developing understanding of the range of different settings in which 'work' happens and of difference between qualifications and skills

Year 7

Introduction to 'Career'

Students define and explain career in terms of a journey and have growing familiarity with key terms.
